

April 7, 2011

LONG GROVE, IL: BENEFITVISION, a leading provider of employee benefit communication, enrollment and data management services, announced today that Charles Schwartz has joined the firm as Vice President, Enrollment.

Ron Kleiman, founder and President of BenefitVision stated "Our Company is founded on excellent benefit communication and enrollment service for every employee. Easy access and outstanding service is the key. As technology is evolving, utilizing the best methodology for communication, enrollment and data management is always our top priority. Adding Charles Schwartz to our resources is a major game changer in helping us do just that."

Mr. Schwartz's skills in operational support, metrics, and staff leadership, will be the key to helping BenefitVision continue to develop unique solutions for employers to meet today's complex challenges.

Mr. Schwartz joins BenefitVision after 10 years as a customer service oriented call center executive, working with industries including health care, HR/benefit enrollment, distribution, manufacturing, financial services and electronic publishing. He initiated several new hire training programs, reducing on-ramping time for new hires by 50% while improving productivity 100%.

"I am very excited to join the dynamic team of professionals at BenefitVision. They have consistently led the field with highly effective benefit communication, enrollment and administrative services for large organizations," Mr. Schwartz noted.

Through Mr. Schwartz's experience he has clearly seen the need help people understand complex benefits. "BenefitVision has been the industry leader in developing new enrollment techniques. They invented one-on-one computer benefit enrollments, benefit enrollments via call center, and they are now moving into the newest web technologies to achieve effective benefit communication. I'm excited to be a part of shaping that future," Mr. Schwartz added.

Mr. Schwartz holds a MS, Management Science, Sloan School of Management, MIT, and a BA Economics & Political Science, University of Pennsylvania, Philadelphia, PA.

BenefitVision is headquartered in Long Grove, IL serving large employers throughout the United States with a diverse range of communication and enrollment options. The company has an Enrollment Office in Los Angeles, CA and a Tele-Enrollment Center in Harrisburg, PA.
